

Doctor Discussion Guide

Name _____ Date _____

This guide can help you talk with your doctor about your GI symptoms—and remember everything you want to say. Please don't be shy about sharing details. The more you tell your doctor, the more he or she can help you.

Key questions to ask:

- Could something I'm eating cause my symptoms?
- Could medications or supplements be part of it?
- What could I do to improve my symptoms?
- Is it possible I have a GI condition?
- Could it be EPI (exocrine pancreatic insufficiency)?
- What are my treatment options?

Discuss the symptoms below with your doctor.
